COMPANY PROFILE

2023

STRATEGY

„We are a customer-oriented company, providing our customers with long-term optimal solutions for the implementation of information technologies. We aim to be a reliable partner so that our customers can be fully dedicated to their objectives and therefore achieve excellent results in their field of activity. We are fundamentally focus on a personal approach and communication, highly specialised competency and maximum professionalism that consequently results in long-term credibility“.

ABOUT COMPANY

IMPROMAT-COMPUTER s.r.o. is a significant provider of infrastructure services in the field of information and communication technologies (ICT). We are able to solve professionally all the standard and individual requirements of our customers regarding information technology from the proposal for the solution, the implementation up to the operation, administration, and renewal up to full outsourcing. During this time, we have entered into a number of strategic partnerships (HPE Gold Partner, HP First Platinum, IBM Silver Business Partner, Microsoft Gold Competency Partner, Red Hat Advanced Business Partner, VMware Advanced Partner...) and have received many awards. We currently employ more than 110 employees. We have implemented the ISO 9001:2016 system of quality management for proposal and development, comprehensive supplies and the servicing of information technologies, the ISO/IEC 27001:2014 an information security management system for projects, complex supplies and services in ICT and system of ICT service management ISO/IEC 20000-1:2018. This ensures high long-term proficiency, standardized quality and information security.

IMPROMAT-COMPUTER is primarily active in the following areas:

- *System and service outsourcing*
- *System, application and HW/SW infrastructure services*
- *Consolidation, virtualization and cloud computing*
- *Platforms for application containerization*
- *Team collaboration in M365 and O365 environments*
- *Data streaming platforms (Apache Kafka)*
- *Cyber security*
- *Multi-licensing, Software Asset Management*
